## Properties

**For sewing reclosable openings** in canopies, mobile pockets, shielding bags, EMC tents, intelligent clothing, etc.. Suitable for all shielding fabrics and nettings. Due to the full silvering the surface is consistently conductive with a good resistance even over the gap! Ideally, the zip fasteners are sewed up with our silvered sewing yarns.

**There is no slider included.** Please order suitable sliders, see our product recommendations below.

## Silver products

- Silver products **discolour** with time and often already have discolorations right from the start. If you don't want to accept staining or discolorations, please choose Swiss-Shield® fabrics.
- Silver fabrics have a **limited durability**, depending on the frequency of movement.
- Our silver fabrics do **not contain any nano silver**, but a thick metallic silver coating.

## Technical data

- **Width: 32 mm**
- **Length: Available by the meter**
- **Highest quality from Germany** due to the following certifications, approvals: ROHS, REACH, ISO 9001:2000
- Surface conductivity: 1.3 ohm (square resistance)
- Material: Polyamid with a 99 % pure silver plating
- Durability: Approx. 5000 x opening and closing
- Temperature resistance: 90 °C
